

NYC COMPUTING INC.

2008

PRESS KIT

WHO WE ARE

NYC Computing Inc. was established in 2002, with the goal of providing clients with a total technology solution. We provide all products and services associated with current technology.

If your company is in need of on-site computer service and support or building a business identity on the Web we can help.

We cover a wide variety of services including but not limited to:

- Consulting
- Networking
- Sales
- Training
- Email Support
- Net security
- Cable Wiring
- Installations
- Computer Support
- Web Design
- Web Hosting
- Internet Services
- Monitoring
- Infrastructure design

Our Clients include, Corporations, Government agencies, Real Estate, Legal Entertainment, Education, and SOHO.

All our consultants have various certifications and are trained in the latest technology platforms. They are tested on social skills, attention to detail and of course technical ability before we even think of sending them out to our clients.

NYC Computing Inc. provides its clients with total technology solution by placing a strong emphasis on professional service and expert technical experience.

OUR MISSION

NYC Computing Inc. is a leading technology service provider for New York, New Jersey and Westchester County.

NYC Computing Inc. enables collaborative relationships through open, industry-driven services and solutions. Through research, innovation, administration, education, and industry representation, NYC Computing Inc. offers companies of every size and scope the ability to run efficient businesses without technology troubles.

NYC Computing Inc.:

- Is dedicated to the development and implementation of standards-based technology solutions.
- Functions as a primary resource for business and industry, developing and technology service and support standards.
- To provide the business with tested professional consultants.
- Provides leadership and governance for its subsidiary companies.
- Services more than 50 companies in 25 industries.
- Is recognized as the integrated service and support solution of choice to create sustained improvement in any company, in any industry, anywhere in New York.

SERVICES

NYC Computing we offer a scale of IT based services and solutions which are customized and adaptable for your needs. We offer a full line of services including, system administration and maintenance, information security, data backup and recovery, software and hardware installation, network and software integration, and implementing complex intranet and internet systems. All of which, are delivered with maximum efficiency and cost effective solutions.

So let's translate this all into English.

It does not matter the size of your network, large or small, we cut your expenses while improving your efficiency. Even if you do not own a network, we can integrate one. You don't need to be a professional expert in IT to reach your goals.

Because while you concentrate on your business needs, our consultants concentrate on creating solutions that best meets your IT needs.

Our team is experienced and professional and offers a background with 10 years plus in the IT industry around the world. We provide constant consulting, coaching, system administration, and site management services, all in order to maximize your efficiency, whether your network includes 5 or 5000 computers.

NYC Computing Inc. improves, manages, and lowers the total cost of ownership of your network. By constantly updating itself to the newest technologies, our team is able to provide our customers with leading edge solutions. We offer a wide range of services to ensure you have the highest standard of Information Protection and Operating System stability.

- Internet/Intranet Networks
- LAN/WAN
- Wireless Networks
- Virtual Privet networks (VPN)
- Cable Installations
- On/Off Site reliable BACK-UP
- Microsoft, Novell & Apple Professionals
- Servers Installation and Configuration
- Windows & Mac Operating systems
- Network Security - Firewalls
- Email Server Solution
- Highly Professional Consulting
- Data/Network (Cat5e, Cat6,Cat7)
- Voice, Video (Coax)

NYC Computing Inc. can monitor your Network 24/7 to avoid down time.

SUPPORT PACKAGES

Imagine having a fully trained and staffed Information Technology (IT) department with the expertise to keep your network, PCs, and people running smoothly. Not just a desktop technician or a network administrator, but a complete technology team made up of, network administrators, network engineers, system engineers, security engineers, web developers, and application developers.

That's where NYC Computing Inc. comes in, servicing New York, New Jersey, and Westchester County we are your very own flat-rate Information Technology (IT) Department with no payroll expense and no high-priced consultants running up the meter. We manage and support your Information Technology (IT) infrastructure for you!

Why Should I Purchase a Support Package?

- **10% - 30 % off hardware and software purchases.**
- **Savings up to 50% off the normal hourly rates!**
- **Unlimited phone support.**
- **Unlimited remote control support.**
- **Proactive as well as reactive service.**
- **Registered for priority service.**
- **Monthly preventive maintenance.**

TESTAMONIALS

"NYC Computing did a great job in setting up our network. They were the project managers for our new network design and implementation. They installed our Internet access, backend servers and desktops. The job went without problems."

- Soundview Radio Corp

"NYC Computing built our network in record time!

- Dominick Scott -Contractor

"I have received numerous compliments as well as my first potential client after the website's activation over a month ago"

Todd J. Strier - Attorney at Law

www.tjslaw.com

"Tremendous job" thank you so much!

- Olinville Arms Co.

www.olinvillearms.com

"I highly recommend NYC Computing Inc for any technical support, they were on time, fast and efficient, my computer problem was fixed and I was up and running with in an hour!"

Kevin Boards

Senior Mortgage Consultant
